The Serene Modular Lounge Collection allows the ultimate flexibility in configuring your outdoor space. With the smart, easy design you can organize your layout based on aesthetics and any spacing requirements needed to allow for a fun and safe environment. The Serene can be set up in single-seat, 2 seater or 3 seater configurations and corner units. The frame is robust outdoor powder-coated metal and cushions are available in graded-in outdoor acrylic fabric.

For the Serene table collection, choose from included Urban tabletop choices or upgrade to any of our in stock Urban options. The Serene tables can be used to separate seating and create an aesthetic and functional environment while respecting safe seating-distance requirements.
