

Aaron Adirondack Dining Table

W - 36" D - 36" H - 30"

Weight: 67 lbs

Materials: Recycled plastic turned into dimensional lumber and used as a wood alternative available in 29 colors.

Features & Benefits: A modern take on classic Adirondack seating, created from inception with sustainability in mind. We use recycled bottle plastic largely retrieved from ocean plastics. This product is made from 100% recycled material and is 100% recyclable at end-of-use-life cycle. The design is unique in that it departs from the classic design lines and imparts light curves and angular back and seat panels for a more aesthetic and modern appeal. This wood alternative is durable and will not splinter, crack, chip, peel, or rot. It is low maintenance - no painting, staining, or waterproofing required. It is color stable, due to built-in UV protection, easy to maintain and clean with soap and water, and features no pinholes, pockmarks, or porosity. The recycled content meets FTC Green Guidelines

Optional Add Ons: None

Order Minimum: None
