EMAIL YOUR ORDER

INFO@BEAUFURN.COM

Please include all contact information for Bill-to address and Ship-to address, all item numbers and descriptions for the items you are ordering.

Your order will be acknowledged by Beaufurn. Please check your acknowledgement for accuracy in item number, description and pricing and notify us of any discrepancies. The acknowledgement must be signed by the customer and is considered an agreement between the customer and Beaufurn, superseding all prior communications regarding the order.

Any changes to your acknowledged order may result in additional charges or delays in shipment of your order. An order may not be altered or canceled once production has begun.

ITEM SPECIFICATIONS

Beaufurn reserves the right to make changes to the products represented in the lines without prior notice to customers. We continually make modifications to structure and dimensions to improve the comfort and look of our items. Dimensions listed are approximate and can vary per item. Please do not assume that a style will have the exact dimensions shown. If you have specific dimensional needs due to limited space, etc please notify Beaufurn at time of order.

COM

All upholstered items are priced as COM, Customer's Own Material, unless otherwise specified in the price list. Beaufurn offers a limited selection of top quality upholstery fabrics. Please contact customer service for pricing and colors available. Beaufurn is not responsible for color accuracy, defects, performance, durability, appearance or flame retardancy of COM. All COM fabrics sent must pass CAL TB-117-2013, and documentation for confirmation must be supplied. However, if the fabric was produced prior to 1/1/15 and passed a similar test method (ASTM, UPFAC or NFPA 260) that is also acceptable. Otherwise, if no certifications or proof of compliance are provided, a barrier can be applied to the material as long as documentation is provided that the barrier meets Section 2 of TB117-2013. COM is not covered under Beaufurn's Limited Warranty. Beaufurn reserves the right to refuse any COM deemed unsuitable for upholstery. Yardage requirements shown in price list are for non-directional fabrics based on 54" wide fabric. In the absence of instructions, we will apply a fabric pattern according to our best judgment. Please ship all COM to Beaufurn and include the order number, customer name and item number the fabric is to be applied to. COM not received within one week of payment with an order, will further delay your order. Your order will be placed on hold and withdrawn from the production queue until we can receive your COM. Once COM is received, your order will be released back into production as quickly as possible.

Safety Instructions

Read the manual thoroughly before you mount the umbrella.

A correct placement is crucial for the correct operation of the umbrella. Any disregard of the safety instructions or regulations can result in serious damage. The manufacturer is not liable for any installation faults.

The wind resistance of the umbrellas is limited. Sufficient base weight must be used to secure umbrellas at all times. Keep in mind the steel base is less stable than a ground anchor.

Installation should be done by a certified technician according to the local regulations and assuring the stability of the umbrella. While Saule umbrellas are made to withstand some wind, it is recommended to always lower the umbrellas during windy conditions (Beaufort Rating 5) and when it is unsupervised.

Unpredictable wind or storm can cause serious damage to sunshade and humans! Also close your parasol in bad weather conditions such as rain, snow, wind and hail. NOTE: Wind damage (or any damage caused by acts of nature) is never covered under warranty.

Umbrellas with LED lights should be installed by a certified electrician according to the required standards. The connection to the electricity grid should be done according to the local regulations.

WIND RATING: BEAUFORT SCALE 5 // 25 MPH WINDS

Beaufort Scale

Beaufort number	Wind Speed (mph)	Seaman's term		Effects on Land
0	Under 1	Calm		Calm; smoke rises vertically.
1	1-3	Light Air		Smoke drift indicates wind direction; vanes do not move.
2	4-7	Light Breeze		Wind felt on face; leaves rustle; vanes begin to move.
3	8-12	Gentle Breeze		Leaves, small twigs in constant motion; light flags extended.
4	13-18	Moderate Breeze		Dust, leaves and loose paper raised up; small branches move.
5	19-24	Fresh Breeze		Small trees begin to sway.
6	25-31	Strong Breeze		Large branches of trees in motion; whistling heard in wires.
7	32-38	Moderate Gale		Whole trees in motion; resistance felt in walking against the wind.
8	39-46	Fresh Gale		Twigs and small branches broken off trees.
9	47-54	Strong Gale		Slight structural damage occurs; slate blown from roofs.
10	55-63	Whole Gale		Seldom experienced on land; trees broken; structural damage occurs.
11	64-72	Storm		Very rarely experienced on land; usually with widespread damage.
12	73 or higher	Hurricane Force		Violence and destruction.

Disclaimer: Marble tops are anti-stain treated prior to leaving the factory. However, marble is a porous material. Food or liquid stains may occur if they are not removed immediately after happening. We recommend that the marble top be re-treated with anti-stain at least twice a year. This is a simple procedure, and there are many available products on the market that will protect the marble during usage.

MARBLE & GRANITE

MARBLE + GRANITE CALCULATIONS

Packaging: All orders will include a \$80 crating fee. Individual crating & packaging, add \$5.00 per square foot.

MDF Plywood Base: 14" x 14" x 3/4" to attach to base:
ADD \$37 per top to the LIST price or \$15 NET per top

Weight: Marble: 11 pounds/square foot (3/4")
 16 pounds/square foot (1-1/4")
 Granite: 12 pounds/square foot (3/4")
 19 pounds/square foot (1-1/4")

Weight Calculation Examples:

For 36" Round or Square Marble
 $36"/12 = 3$
 $3 \times 3 = 9$
 $9 \times 11\# \text{ per sq. ft.} = 99 \text{ lbs./top}$
 For 48" x 30" Marble Top
 $(48/12) \times (30/12)$
 $4 \times 2.5 = 10$
 $10 \times 11\# \text{ per sq. ft.} = 110 \text{ lbs./top}$

Sample Marble or Granite Price Calculation:

To price a marble or granite table top with 3/4" thick standard edge, use the following calculation:
 $L/12 \times W/12 \times \$ \text{ of marble per sq. ft.} = \text{Price of marble with a Standard Edge}$

Ex. To calculate a 30" x 42" Table top with a Standard Edge:
 $30/12 \times 42/12 \times \$55 \text{ (the price per sq. ft.)}$
 $2.5 \times 3.5 \times \$55.00$
 $8.75 \times \$55 = \$481.25 \text{ Price of Table Top LIST}$
 Ex. To calculate a 24" x 24" Table top with a Standard Edge:
 $24/12 \times 24/12 \times \$55 \text{ (the price per sq. ft.)}$
 $2 \times 2 \times \$55.00$
 $4 \times \$55 = \$220.00 \text{ Price of Table Top LIST}$

To calculate all other edges use the following calculation:

For Square or Rectangle $(L / 12 + W / 12)2 \times \$ \text{ of the Edge}$

Ex. To calculate a 30" x 42" Table top with a Bullnose Edge:
 $(30/12 + 42/12) \times 2 \times \31.00
 $(2.5 + 3.5) \times 2 \times \31.00
 $6 \times 2 \times \$24 = \$300 \text{ (price of bullnose edge)}$
 $\$288 + \$481.25 = \$769.25$
 $\text{(price of edge)} \quad \text{(price of marble)} \quad \text{(price of table top) LIST}$

For Round: $\text{Dia.}/12 \times 3.1416 \times \$ \text{ per linear foot of the edge}$

Ex. $36" / 12 \times 3.1416 \times \$24 = \$226 \text{ (Price of edge LIST)}$

MAINTENANCE INSTRUCTIONS

Thank you for choosing our furniture for your establishment. We would like to do our best to ensure that our quality standards meet to your satisfaction. Please be advised of the following recommendations regarding maintenance and care of your furniture:

The furniture is made to withstand normal wear and tear under normal conditions. It is recommended that users make periodic inspections to look for damages or signs of structural fatigue incurred in daily handling and use. Loose screws should be tightened immediately and any product that needs repair should be taken out of service immediately for repair or replacement.

Maintenance Instructions - Chairs & Barstools

Only water, with or without soap, should be used for cleaning non-wooden chairs. Wooden chairs should be wiped with a cloth or cleaned with furniture polish.

Maintenance Instructions - French Bistro Collection

If the French Bistro chairs and table bases are used outdoors, we recommend that the frames be lightly sanded and re-varnished once a year with any commercial outdoor spray lacquer. Make sure you replace any missing glides immediately. Not recommended to keep outside in rain, sleet, snow, etc. During wintertime and in any inclement weather conditions, the chairs and tables should be covered and stored away.

Maintenance Instructions - Acrylic Fusion Tops

Cleaning Instructions: Suggested cleaning includes mix of mild soap and warm water ONLY; apply only with a clean, soft cloth and dry immediately after cleaning. Any stains or water rings should be wiped up immediately to help protect the surface of the top from marring & discoloration. Do NOT use bleach, ammonia, chlorine, or acid-based (including citrus/organic) cleaners. Acidic and chemically abrasive solutions and solvents will damage or destroy the acrylic material.

Maintenance Instructions - PolyTeak Table Tops & Chairs

Our polyteak table tops and chairs are suitable for outdoor use. For cleaning use only soap and water, no ammonia or acid based cleaners as these will damage the surface.

Maintenance Instructions - Teak Table Tops & Chairs

Our teak wood table tops and chairs are suitable for outdoor use. Teak is a natural product and should be treated regularly with varnish, teak oil, or any top coat material, to maintain the original teak wood product.

Maintenance Instructions - Werzalit Molded Table Tops

Our Werzalit molded tops are resistant to most chemicals and cleaning fluids and are easy to wipe clean. However, we recommend using a mild soap or detergent for cleaning. Do not use any abrasive cleaners or cloths. Please also read Werzalit Top Information Sheet.

Maintenance Instructions - Wood Veneer or Solid Wood Table Tops

Suggested cleaning includes mix of mild soap and warm water; apply only with a cloth and dry immediately after cleaning. Any stains or water rings should be wiped up immediately to help protect the surface of the top from marring & discoloration. Do NOT use bleach, ammonia, or chlorine or acid-based (citrus) cleaners. Acidic and chemically abrasive solutions will damage the finish of the wood surface.

Maintenance Instructions - Marble Table Tops

Marble table tops are anti-stain treated prior to leaving the factory. However, marble is a porous material. Food or liquid stains may occur if they are not removed immediately after happening. We recommend that the marble table top be re-treated with anti-stain at least twice per year. This is a simple procedure, and there are many available products on the market that will protect the marble during usage.

Maintenance Instructions - Laminate Table Tops

Following are general guidelines for the cleaning of laminate table tops. However, there are extensive cleaning instructions that you can get from the website of the laminate manufacturer (Nevamar, Wilsonart, and Formica) that detail specific table top finishes and many kinds of possible stains. Wipe tops using a clean, damp cloth or sponge with a mild soap, non-bleach detergent or a general purpose cleaner (Windex, Formula 409, PineSol, Dawn). Polishes and sealers are not recommended. Application of these products will cause a residue buildup. We do not recommend the use of any cleaners with bleach, abrasives, or anti-bacterial formulas that may damage the finish of the top. Do not flood the laminate top, especially near the seams, since water can penetrate and cause the substrate to swell. Wipe dry immediately after cleaning.

MAINTENANCE INSTRUCTIONS

Maintenance Instructions - Aluminum / Stainless Steel

USING THE ALL WEATHER COLLECTION OUTDOORS: Due to the harsh climate (ocean, sand, weather, etc) that is experienced in some areas, we recommend the application of Duragloss Liquid Aluminum Polish # 881. The polish can be found at most hardware and auto part stores. The polish is formulated to clean and polish all types of metal surfaces. It removes oxidation, tarnish, rust and soil. It leaves a protective coating, which resists future oxidation. We recommend re-application of the polish at least once per year.

Directions for application:

- 1) Apply metal polish using a 100% cotton cloth or pad
- 2) Allow to haze 4-5 minutes
- 3) Remove haze with a clean 100% cotton cloth

For application on tarnished items, use a soft wire cloth and apply extra pressure as needed, then wipe off with the cotton cloth.

Scratches: To remove scratches, start sanding with 240 grit paper and then clean with an abrasive cleanser and a green Scotch Brite pad.

Satin Finish

Scratches: To remove scratches, start by sanding with 400 grit paper followed by 600 grit paper. Then clean the area with Soft Scrub and a white Scotch Brite pad. You may choose to spray a light coat of Protect All to enhance the luster. Scratches: To remove scratches, start by sanding with 400 grit paper followed by 600 grit paper. Scratches: To remove scratches from a high gloss finish, start sanding with 400 grit paper. The surface must then be machine polished back to its original finish. Advise customer to contact the AVONITE Surfaces Fabricator if they do not own or have access to this equipment.

Helpful Hints

- Always use a hot pad or trivet under hot pots or heat producing appliances.
- Always use a cutting board.
- Never stand on your counters.
- Avoid harsh chemicals such as drain cleaners and paint removers.
- For high gloss counters place felt protectors on the bottom of pottery or other hard objects.
- Avoid sliding hard objects across these glossy surfaces.
- Always run cool water when pouring boiling water into Avonite Surfaces sinks.

Maintenance Instructions - Varnished, Painted, or Powdercoated Metal Surfaces

Varnished, painted or powder coated metal surfaces must be cleaned ONLY with NON ABRASIVE and NON ACIDIC solutions. Only use mild soap, non bleach detergent or a general purpose cleaner such as Dawn soap. Polish and sealers are not recommended. We do not recommend the use of any cleaners with concentrated bleach, Citrus-type cleaner, abrasives, or anti bacterial formulas as they will damage the finish of the top and void any warranty.

Maintenance Instructions - Leather Upholstery

WEEKLY - dust your leather items weekly to keep pores free from dust particles. Wipe with a soft cloth. Clean stains immediately with a damp cloth and mild detergent. It is a good idea to have a leather cleaner on hand. QUARTERLY - you should use a high quality leather conditioner/preservative to protect the leather and keep it supple.
